DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,4 & 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Nakamura et al (US Patent No. 5,142,879). Nakamura et al discloses an air conditioning system comprising: a user-side type heat exchanger (4a), a condenser (4b) situated between said user-side heat exchanger and a compressor (2) and cooling the refrigerant. With respect to claim 4: the refrigerant circuit further comprises pressure detention devices (Ps, Pd) that controls the predetermined temperature of outdoor heat exchanger & condenser (see column 10).

Allowable Subject Matter

Claims 2,3,5 & 7-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
